PATTERN NOTES:

This pattern is worked in the amigurumi style (unless specified), in a spiral without slip stitching or turning chains

Invisible decreases: Decreases in this pattern are worked in the following manner - Insert hook in the FRONT LOOP ONLY of the st indicated and pull up a loop (two loops on hook), Insert hook in the FRONT LOOP ONLY of the next st, yarn over, pull through three loops on hook. Working a decrease in this way helps reduce appearance of holes that can be made when working a decrease the normal way.

Joining pieces together: Leave a long yarn tail when fastening off (unless specified) to use to join parts together.

How to make hair: Fold two strands of yarn in half so that there's a U-shaped bend on one side and four 'tails' on the other side. Insert your hook around a stitch where you want to add the hair on the head catch the bend of your yarn with your hook, pull the folded end of the yarn under the stitch taking care not to pull the yarn all the way through. The ends of the yarn should remain on the opposite side of the stitch as the folded end. Open up the fold of the yarn so that you have a loop. Insert the tail ends of yarn into the loop. Pull the ends of the yarn tightly to cinch the loop down into a knot.

Blusher: used in this pattern is just normal makeup

SPECIAL STITCHES:

Make Bobble (MB): Make Bobble (MB) * yo, insert hook in indicated st, pull up a loop, * repeat from * to * 3 times (9 loops on hook), yo and pull through all loops on hook, continue with the next st as normal.

HAIR:

Cut several lengths of yarn approx 31cm long then attached as per guidance. I added hair on the first 5 rnds of the head.

HALO:

With E and a 3mm hook make a ch that it long enough to fit around the angels head, sl st to form a ring, fasten off and weave in ends.

MAKING UP:

- Attach head to the top of the body
- Attach hands slightly inside the sleeves
- Attach sleeves to either side of the body; attaching them so the hands are on the front of the body (as per the photos)
- Add hair to the top of the head (as per guidance)
- Join flat row ends of wings together, then attach the wings centrally to the back of the body
- Add halo so it sits around the head
- Add blusher to the cheeks (optional)

WASHING INSTRUCTIONS

All our threads are produced in accordance with Oeko-Tex standards. PH values are tested and all our colour dye lots adhere to Global fastness standards. However, it is important to follow our thread washing instructions. Particularly with dark colors, excess dye can remain on the thread. To minimise any potential bleeding of excess dyestuff it is important to wash the products in THE HOTTEST TEMPERATURE possible, in accordance with the specifications of the fabrics, and use a large amount of water. Please make sure that you also follow the fabric washing instructions where appropriate. As a precaution, you can also use decolorating sheets that you can find in any supermarket.
