FINISHING

With the white thread embroider a small white line in the black side of the
eye.

Stitch your eyes on the front of the case. (12 st apart)

Sew your nose in the middle of your eyes and embroider your mouth. (See
the photo as an example)

Sew the cheeks in the lower front side.

WASHING INSTRUCTIONS

All our threads are produced in accordance with Oeko-Tex standards. PH
values are tested and all our colour dye lots adhere to Global fastness
standards. However, it is important to follow our thread washing instruc-
tions. Particularly with dark colors, excess dye can remain on the thread.
To minimise any potential bleeding of excess dyestuff it is important to
wash the products in THE HOTTEST TEMPERATURE possible, in accord-
ance with the specifications of the fabrics, and use a large amount of water.
Please make sure that you also follow the fabric washing instructions where
appropriate. As a precaution, you can also use decolorating sheets that
you can find in any supermarket.
